SUMMARY

Software Developer with 5 years of experience building scalable microservices on Oracle Cloud (OCI). Proficient in Java, Helidon, Spring Boot, Docker, and Kubernetes. Adept at optimizing application performance, leading cloud migrations, and integrating value-added features.

CORE SKILLS

- **Languages:** Java, SQL, Python, C++
- **Frameworks:** Microservices, Helidon, Maven, Spring Boot
- **Cloud & Containers:** OCI, CI/CD, Docker, Kubernetes, AWS, Azure
- **Data/Streaming:** Oracle DB, Oracle ADB, Apache Kafka
- **Monitoring:** Prometheus, Grafana, Jaeger
- **Tools & Practices:** Git, GitLab, Jira, Confluence, REST APIs, Agile, Unit & Integration Testing, Cline & MCP server

PROFESSIONAL EXPERIENCE

Oracle Financial Services Software Limited

Application Developer 2 — Backend Engineer

Bangalore

Sep 2022 – Present

- Led Agile team tasks for critical release cycles and project milestones.
- Developed orchestrator components increasing performance and reliability, adopted company-wide.
- Optimized SQL queries and backend modules, enhancing throughput for datasets of 50M+ records.
- Integrated and designed new cloud-native features, improving product capabilities and scalability.
- Engineered and delivered FTP Engine workflow for ALMCS product suite.
- Utilized Oracle Code Assist, Cline, and MCP servers to streamline and automate code pipelines.
- **Tech Used:** Helidon, Java, Maven, Oracle ADB, Docker, Kubernetes, OCI, Prometheus, Jaeger, Grafana

Oracle Financial Services Software Limited

Associate Application Developer

Bangalore

Sep 2020 – Aug 2022

- Pioneered Conditional Assumption approach, delivering 10x speedup versus legacy solutions.
- Migrated complex on-premise systems into cloud-native microservices architecture.
- Executed comprehensive unit, integration, and load testing for all critical CI/CD deployments.
- Refactored legacy codebase; coordinated integration with cross-functional teams.
- **Tech Used:** Java, Scala, Oracle DB, Maven, Spring Boot, Microservices, Docker, Kubernetes, OCI

EDUCATION

Malaviya National Institute of Technology Jaipur

Bachelor of Technology, Electronics & Communication Engineering — GPA: 7.65

Jul 2016 – May 2020

PROJECTS

Stock Ticker Data Fetcher

Python, Snowflake, Polygon.io API

Jun 2025 – Aug 2025

- Built real-time ETL pipeline in Python to fetch, process, and store U.S. stock ticker data with both daily and ad-hoc scheduling.
- Integrated Snowflake for automated data warehousing and advanced analytics.
- Implemented robust logging and error handling with detailed monitoring.
- [View on GitHub](#)

Facial Recognition Attendance System

Academic Project, Machine Learning

Sep 2019 – May 2020

- Engineered a computer vision solution using facial recognition to automate student attendance.

AWARDS & ACHIEVEMENTS

- Oracle Cloud Infrastructure 2025 Generative AI Professional
- Oracle Cloud Infrastructure 2024 Certified Foundations Associate
- FSGBU Pacesetter Award (Apr 2023 – Mar 2024), Oracle Financial Services
- Best Team Award (Apr 2023 – Mar 2024), Oracle Financial Services
- CODEFORCES Pupil (Max Rating 1300+); 500+ problems solved across platforms
- Volunteered at Sphinx, Rajasthan's largest TechFest (25K+ attendees)
